Edward Pitoniak, Chief Executive Officer of VICI Properties, said, "In 2022, less than 5 years from our IPO, VICI became a Top 10 REIT in the RMZ REIT Index, a member of the S&P 500 and an investment grade issuer of credit. In the first half of the year, we completed our transformational acquisitions of MGM Growth Properties and the Venetian Resort Las Vegas, thereby becoming the leading real estate owner on America's most dynamic commercial street, The Las Vegas Strip. In the second half of the year and into 2023, we demonstrated the advantage and flexibility provided by VICI's scale and liquidity as we announced and originated

approximately \$4.5 billion of investments across a variety of gaming and non-gaming opportunities, diversifying our relationships and expanding internationally into Canada with our PURE Canadian Gaming announcement in January 2023. Finally, we are proud that VICI generated the highest—and only positive—total shareholder return of all S&P 500 REITs in 2022. We are confident that our 2022 activities and achievements will continue to put VICI in position for sustainable accretive growth and value creation for our shareholders into 2023 and beyond.”

## 2023 Guidance

The Company is providing preliminary AFFO guidance for the full year 2023. In determining AFFO, the Company adjusts for certain items that are otherwise included in determining net income attributable to common stockholders, the most comparable generally accepted accounting principles in the United States ("GAAP") financial measure. In reliance on the exception provided by applicable rules, the Company does not provide guidance for GAAP net income, the most comparable GAAP financial measure, or a reconciliation of 2023 AFFO to GAAP net income because we are unable to predict with reasonable certainty the amount of the change in non-cash allowance for credit losses under ASU No. 2016-13 - Financial Instruments—Credit Losses (Topic 326) ("ASC 326") for a future period. The non-cash change in allowance for credit losses under ASC 326 with respect to a future period is dependent upon future events that are entirely outside of the Company's control and may not be reliably predicted, including its tenants' respective financial performance, fluctuations in the trading price of their common stock, credit ratings and outlook (each to the extent applicable), as well as broader macroeconomic performance. Based on past results and, as disclosed in our historical financial results, the impact of these adjustments could be material, individually or in the aggregate, to the Company's reported GAAP results. For more information, see "Non-GAAP Financial Measures."

The Company estimates AFFO for the year ending December 31, 2023 will be between \$2,115 million and \$2,155 million, or between \$2.10 and \$2.13 per diluted share. Guidance does not include the impact on operating results from any pending or

possible future acquisitions or dispositions, capital markets activity, or other non-recurring transactions.

The following is a summary of the Company's full-year 2023 guidance:

<b>For the Year Ending December 31, 2023 (\$ in millions):</b>	<b>Low</b>	<b>High</b>
Estimated Adjusted Funds From Operations (AFFO)	\$2,115	\$2,155
Estimated Adjusted Funds From Operations (AFFO) per diluted share	\$2.10	\$2.13
Estimated Weighted Average Share Count for the Year ( <i>in millions</i> )	1,009.5	1,009.5

The above per share estimates reflect the dilutive effect of the pending 30,302,500 shares related to the January 2023 Forward Sale Agreements as calculated under the treasury stock method. VICI OP Units held by a third party are reflected as non-controlling interests and the income allocable to them is deducted from net income to arrive at net income attributable to common stockholders and AFFO; accordingly, guidance represents AFFO per share attributable to common stockholders based solely on outstanding shares of VICI common stock.

The estimates set forth above reflect management's view of current and future market conditions, including assumptions with respect to the earnings impact of the events referenced in this release. The estimates set forth above may be subject to fluctuations as a result of several factors and there can be no assurance that the Company's actual results will not differ materially from the estimates set forth above.

### **Forward-Looking Statements**

This press release contains forward-looking statements within the meaning of the federal securities laws. You can identify these statements by our use of the words "anticipates," "assumes," "believes," "estimates," "expects," "guidance," "intends," "plans," "projects," and similar expressions that do not relate to historical matters. All statements other than statements of historical fact are forward-looking statements. You should exercise caution in interpreting and relying on forward-looking statements because they involve known and unknown risks, uncertainties, and other factors which are, in some cases, beyond the Company's control and could materially affect actual results, performance, or achievements. Among those risks, uncertainties and other factors are: the impact of changes in general economic conditions and market developments, including rising inflation, rising interest rates, supply chain disruptions, consumer confidence levels, unemployment levels and depressed real estate prices resulting from the severity and duration of any downturn in the U.S. or global economy; the impact of the rise in interest rates on us, including our ability to successfully pursue investments in, and acquisitions of, additional properties and to obtain debt financing for such investments at

attractive interest rates, or at all; risks associated with our pending and recently completed transactions, including our ability or failure to realize the anticipated benefits thereof; our dependence on our tenants as tenants of our properties and their guarantors as guarantors of the lease payments and the negative consequences any material adverse effect on their respective businesses could have on us; the effects of our pending and recently completed transactions on us, including the future impact on our financial condition, financial and operating results, cash flows, strategy and plans; the anticipated benefits of certain arrangements with certain tenants relating to our funding of “same store” capital improvements in exchange for increased rent pursuant to the terms of our agreements with such tenants, which we refer to as the Partner Property Growth Fund; our borrowers’ ability to repay their outstanding loan obligations to us; our dependence on the gaming industry; the impact of extensive regulation from gaming and other regulatory authorities; the ability of our tenants to obtain and maintain regulatory approvals in connection with the operation of our properties, or the imposition of conditions to such regulatory approvals; the possibility that our tenants may choose not to renew their lease agreements with us following the initial or subsequent terms of the leases; restrictions on our ability to sell our properties subject to our lease agreements; our tenants and any guarantors’ historical results may not be a reliable indicator of their future results; our substantial amount of indebtedness, including indebtedness assumed and incurred by us in connection with our recently completed transactions, and ability to service, refinance and otherwise fulfill our obligations under such indebtedness; our historical financial information may not be reliable indicators of our future results of operations, financial condition and cash flows; our inability to successfully pursue investments in, and acquisitions of, additional properties; the possibility that we identify significant environmental, tax, legal or other issues that materially and adversely impact the value of assets acquired or secured as collateral (or other benefits we expect to receive) in any of our recently completed transactions; the possibility of adverse tax consequences as a result of our recently completed transactions, including tax protection agreements to which we are a party; increased volatility in our stock price, including as a result of our pending and recently completed transactions; our inability to maintain our qualification for taxation as a REIT; our reliance on distributions received from VICI OP and its subsidiaries to make distributions to our stockholders; our ability to continue to make distributions to holders of our common stock or maintain anticipated levels of distributions over time; and competition for transaction opportunities, including from other REITs, investment companies, private equity firms and hedge funds, sovereign funds, lenders, gaming companies and other investors that may have greater resources and access to capital and a lower cost of capital or different investment parameters than us.

Although the Company believes that in making such forward-looking statements its expectations are based upon reasonable assumptions, such statements may be influenced by factors that could cause actual outcomes and results to be materially different from those projected. The Company cannot assure you that the assumptions upon which these statements are based will prove to have been correct. Additional important factors that may affect the Company’s business, results of operations and financial position are described from time to time in the Company’s Annual Report on Form 10-K for the year ended December 31, 2022, Quarterly Reports on Form 10-Q and the Company’s other filings with the Securities and Exchange Commission. The Company does not undertake any obligation to update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise, except as may be required by applicable law.

### **Non-GAAP Financial Measures**

This press release presents Funds From Operations (“FFO”), FFO per share, Adjusted Funds From Operations (“AFFO”), AFFO per share and Adjusted EBITDA, which are not required by, or presented in accordance with, generally accepted accounting principles in the United States (“GAAP”). These are non-GAAP financial measures and should not be construed as alternatives to net income or as an indicator of operating performance (as determined in accordance with GAAP). We believe FFO, FFO per share, AFFO, AFFO per share and Adjusted EBITDA provide a meaningful perspective of the underlying operating performance of our business.

FFO is a non-GAAP financial measure that is considered a supplemental measure for the real estate industry and a supplement to GAAP measures. Consistent with the definition used by The National Association of Real Estate Investment Trusts (Nareit), we define FFO as net income (or loss) attributable to common stockholders (computed in accordance with GAAP) excluding (i) gains (or losses) from sales of certain real estate assets, (ii) depreciation and amortization related to real estate, (iii) gains and losses from change in control and (iv) impairment write-downs of certain real estate assets and investments in entities when the impairment is directly attributable to decreases in the value of depreciable real estate held by the entity.

AFFO is a non-GAAP financial measure that we use as a supplemental operating measure to evaluate our performance. We calculate AFFO by adding or subtracting from FFO non-cash leasing and financing adjustments, non-cash change in allowance for credit losses, transaction costs incurred in connection with the acquisition of real estate investments, non-cash stock-based compensation expense, amortization of debt issuance costs and original issue discount, other non-cash interest expense, non-real estate depreciation (which is comprised of the depreciation related to our golf course operations), capital expenditures (which are comprised of additions to property, plant and equipment related to our golf course operations), impairment charges related to non-depreciable real estate, gains (or losses) on debt extinguishment and interest rate swap settlements, other non-recurring non-cash gains or losses (such as non-cash gain upon lease modification) and non-cash adjustments attributable to non-controlling interest with respect to certain of the foregoing.

We calculate Adjusted EBITDA by adding or subtracting from AFFO contractual interest expense and interest income (collectively, interest expense, net) and income tax expense.

These non-GAAP financial measures: (i) do not represent cash flow from operations as defined by GAAP; (ii) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and

financing activities; and (iii) are not alternatives to cash flow as a measure of liquidity. In addition, these measures should not be viewed as measures of liquidity, nor do they measure our ability to fund all of our cash needs, including our ability to make cash distributions to our stockholders, to fund capital improvements, or to make interest payments on our indebtedness. Investors are also cautioned that FFO, FFO per share, AFFO, AFFO per share and Adjusted EBITDA, as presented, may not be comparable to similarly titled measures reported by other real estate companies, including REITs, due to the fact that not all real estate companies use the same definitions. Our presentation of these measures does not replace the presentation of our financial results in accordance with GAAP.

Reconciliations of net income to FFO, FFO per share, AFFO, AFFO per share and Adjusted EBITDA are included in this release.
